PRÓLOGO

Este catálogo contiene los índices onomásticos y geográficos de cientos de publicaciones que guardan algún tipo de relación con el concepto de la creación, invención o gestión de un emplazamiento independiente de cualquier Gobierno.

La idea de crear un país ha sido uno de los grandes anhelos de muchos; la mayoría buscan la notoriedad de ser rey o emperador de su propio país, otros quieren hacer a sus parejas reinas o princesas, aunque también están quienes buscan las herramientas legales necesarias para poder gestionar inmensas fortunas sin el control de un Gobierno ajeno a ellos mismos.

En 2006 tuve la oportunidad de abrir una agencia inmobiliaria, **Inmonaranja**, especializada en ofrecer información inmobiliaria al cliente utilizando las nuevas tecnologías móviles. Desafortunadamente este concepto no tuvo la aceptación esperada debido a la poca evolución tecnológica del momento, por lo que busqué otro nicho empresarial inmobiliario y encontré la posibilidad de vender islas privadas.

Tras varias noticias aparecidas en prensa sobre este nuevo producto; la posibilidad de ser propietario de una isla privada; comencé a recibir llamadas de "despachos de abogados" interesados en ampliar datos sobre la posibilidad legal de adquirir una isla privada y segregarla del país del que forma parte. Obviamente esto sonaba raro, aunque tras una docena de este tipo de llamadas opté por ofrecer lo que los clientes reclamaban, "un país en venta".

Las primeras gestiones pasaron por contactar con pequeños países isleños como Nauru, Tonga, Vanuatu, etc.., a sabiendas de la improbable posibilidad de que quisieran "venderlos". El siguiente pasó fue buscar un producto para este tipo de compradores y localicé lo más parecido que existe al concepto de país: el Principado de Sealand.

Había analizado algunos informes y tesis universitarias en las que se afirmaba que el citado lugar disponía de cierta inviolabilidad digital, por lo que era, en el ámbito financiero, todo un "país independiente".

Encontrado el lugar, contacté con Michael Bates, príncipe de Sealand, y le planteé la posibilidad de poner en venta su principado; una plataforma de unos 500 m2 ubicada frente a las costas inglesas;.

Tras varios meses de intercambio de e-mails conseguimos llegar al acuerdo de anunciar la posibilidad de comprar el "Principado de Sealand" por 750 millones de euros.

Los Bates insistieron en que el concepto no era venta sino traspaso, y que además los posibles adquirientes debían cumplir unos requisitos entre los cuales se encontraba el que las actividades a realizar en el Principado de Sealand no fuesen en contra de los intereses del Reino Unido.

Tras esta apasionante aventura tuve la oportunidad de profundizar en el concepto de los antiguos aventureros, exploradores o soldados de fortuna que intentaron crear países a lo ancho de los cinco continentes.

Los ejemplos son muchísimos y con las nuevas tecnologías se han convertido en un nuevo concepto que, bajo la filosofía de formar parte de un nuevo país, ofrecen todo tipo de merchandising (pasaportes, sellos postales, moneda, banderas, etc..)

Los interesados en este ámbito seguro que han escuchado mencionar, además del Principado de Sealand, otros lugares como:

Principality of Hutt River
Conch Republic
Empire of Atlantium
République du Saugeais
Republic of Counani
República Independiente de Motril
Republic of Molossia
Kingdom of Sedang
Principato di Seborga
Kingdom of Talossa, etc….

Esta guía del Archivo del Principado de Montecristo incluye fuentes documentales (libros, tesis, informes, artículos de prensa, páginas webs, etc...) relacionadas con todo este tipo de conceptos; desde la antigüedad hasta nuestros días.

***Su consulta sólo está disponible en nuestro archivo, de modo presencial y con cita previa*.**

Del mismo modo se aceptan publicaciones, investigaciones, etc.., para incorporar al mencionado archivo y que, como las que se muestran en esta guía, se le realizará el índice onomástico y geográfico y se incluirá en futuras ediciones de este archivo.

¿Cómo consultar el archivo?

Uno de los libros más icónicos del movimiento libertario; de aquellos que buscan la utopía de un país perfecto; es sin duda "*How to start your own country*", del autor Erwin S. Strauss.

Es de suponer que este autor será uno de los que estén más referenciados en otros libros, artículos, estudios, tesis, etc.., que traten este tipo de conceptos, por lo que si consultamos el ***Archivo del Principado de Montecristo*** por este autor obtenemos el siguiente resultado:

APELLIDO, NOMBRE (complemento)	***[CÓDIGO]***	***NUMEROS DE PÁGINA***

Como se puede comprobar de la búsqueda **Strauss**, hay menciones en las que aparece el apellido e inicial del nombre (**Strauss, E.**), otras muestran apellido e iniciales de los nombres: (**Strauss, E.S.**); una tercera posibilidad es el apellido y nombre: (**Strauss, Erwin**); aunque lo más habitual son las referencias en las que se indica el apellido, nombre e inicial de segundo nombre (**Strauss, Erwin S**.).
Si hay algún elemento adicional a la simple referencia: por ejemplo aparece una fotografía, se añade este dato entre paréntesis (foto) (sello) (gobernador), etc.......

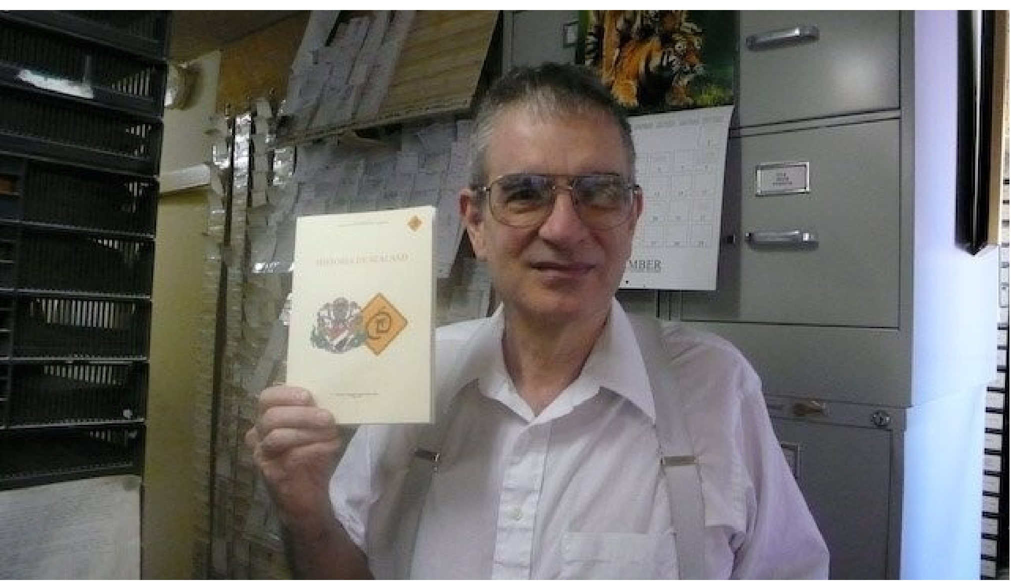

Si observamos esta referencia:

Strauss, Erwin S.	[AL]	**0**,I,II,III,VI,156

Vemos que hay un **0** (**cero**) en la referencia.
Ese "cero" indica que esa persona es el autor de la publicación, por lo que siempre que busquemos referencias escritas por una persona en concreto deberemos buscar este 0.

Es posible que en futuras versiones de este manual encuentre, bajo este autor, más derivaciones del mismo, en las que se podría incluir el segundo nombre, o incluso el alias que pudiera ser del tipo:

Strauss, Erwin Sheehan
Strauss, Erwin S. (filthy pierre)
Strauss, Erwin Sheehan (filthy pierre)

Erwin Sheehan Strauss, alias Filthy Pierre, con un ejemplar numerado de la Historia de Sealand. 2007

Esta referencia aparecerá en el índice onomástico como:
Strauss, Erwin Sheehan (filthy pierre)(foto)

Todas las referencias, a pesar de la disparidad de las mismas, indican un mismo personaje, por lo que cuando investigue, analice todas las posibilidades de localización, incluso escribiendo con errores ortográficos.

La columna central de la referencia [letras entre corchetes] indica la codificación del libro, artículo de prensa, informe, tesis o documento. Así, en este caso **[AL]** se trata del libro:
"*How to start your own country*", de *Erwin S. Strauss*
